

MANAGEMENT DISCUSSION AND ANALYSIS

For the three and six months ended June 30, 2018

This management's discussion and analysis ("**MD&A**") should be read in conjunction with the unaudited condensed consolidated interim financial statements for the three and six months ended June 30, 2018 for Alaris Royalty Corp. ("**Alaris**" or the "**Corporation**"). The Corporation's consolidated financial statements and the notes thereto have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and are recorded in Canadian dollars. Certain dollar amounts in the MD&A have been rounded to the nearest thousands of dollars.

This MD&A contains forward-looking statements that are not historical in nature and involve risks and uncertainties. Forward-looking statements are not guarantees as to the Corporation's future results since there are inherent difficulties in predicting future results. Accordingly, actual results could differ materially from those expressed or implied in the forward-looking statements. See "Forward Looking Statements" for a discussion of the risks, uncertainties and assumptions relating to those statements. Some of the factors that could cause results or events to differ from current expectations include, but are not limited to, the factors described under "Risks and Uncertainty" in the annual MD&A. This MD&A also refers to certain non-IFRS measures, including EBITDA, Normalized EBITDA, Earnings Coverage Ratio, Contracted EBITDA, Run Rate Payout Ratio, Actual Payout Ratio, Tangible Net Worth and Per Share values as well as certain financial covenants defined below to assist in assessing the Corporation's financial performance. The terms EBITDA, Normalized EBITDA, Earnings Coverage Ratio, Contracted EBITDA, Run Rate Payout Ratio, Actual Payout Ratio, Tangible Net Worth, Fixed Charge Coverage Ratio and Per Share values (the "**Non-IFRS Measures**") as well as certain financial covenants as defined below are financial measures used in this MD&A that are not standard measures under IFRS. The Corporation's method of calculating the Non-IFRS Measures may differ from the methods used by other issuers. Therefore, the Corporation's Non-IFRS measures may not be comparable to similar measures presented by other issuers. See "Results of Operations" for a reconciliation of EBITDA and Normalized EBITDA to earnings.

EBITDA refers to earnings determined in accordance with IFRS, before depreciation and amortization, net of gain or loss on disposal of capital assets, interest expense and income tax expense. EBITDA is used by management and many investors to determine the ability of an issuer to generate cash from operations. Management believes EBITDA is a useful supplemental measure from which to determine the Corporation's ability to generate cash available for debt service, working capital, capital expenditures, income taxes and dividends.

Normalized EBITDA refers to EBITDA excluding items that are non-recurring in nature and is calculated by adjusting for non-recurring expenses and gains to EBITDA. Management deems non-recurring items to be unusual and/or infrequent items that the Corporation incurs outside of its common day-to-day operations. For the three and six months ended June 30, 2018 and 2017, the gains on the redemption of the Agility units and the sale of the End of the Roll intangible asset, increase in fair value of investments, previously unrecognized distributions received upon the Labstat redemption and KMH and Group SM bad debt expense are considered by management to be non-recurring charges. Foreign exchange realized and unrealized gains and losses are recurring but not considered part of operating results and excluded from EBITDA on an ongoing basis. Adjusting for these non-recurring items allows management to assess EBITDA from ongoing operations.

Normalized Earnings refers to earnings excluding items that are non-recurring in nature and is calculated by adjusting for non-recurring expenses, gains, non-cash unrealized gains and losses on foreign exchange items and the net tax impact of the adjustments to earnings. Management deems non-recurring items to be unusual and/or infrequent items that the Corporation incurs outside of its common day-to-day operations. The corresponding tax impact of the all non-recurring items is adjusted in Normalized Earnings. For the three and six months ended June 30, 2018 and 2017, the gain on the redemption of the Agility units and the sale of the End of the Roll intangible asset and associated tax impact, increase in fair value of investments, previously unrecognized distributions received upon the Labstat redemption and KMH and Group SM bad debt expense are considered by management to be non-recurring charges. Foreign exchange realized and unrealized gains and losses are recurring but not considered part of operating results and excluded from earnings on an ongoing basis.

Earnings Coverage Ratio refers to the Normalized EBITDA of a Partner divided by such Partner's sum of debt servicing (interest and principal), unfunded maintenance capital expenditures and distributions to Alaris.

Per Share values, other than earnings per share, refer to the related financial statement caption as defined under IFRS or related term as defined herein, divided by the weighted average basic shares outstanding for the period.

Fixed Charge Coverage Ratio refers to EBITDA less unfunded maintenance capital expenditures less income taxes divided by the sum of interest, debt repayments and dividends paid by Alaris.

Contracted EBITDA refers to EBITDA for the previous twelve months excluding proceeds from any disposition of investments and any distributions accrued and not received but including all projected contracted payments from new and existing investments for the twelve-month period following the investment date.

Run Rate Payout Ratio: Run Rate Payout Ratio refers to Alaris' total dividend per share expected to be paid over the next twelve months divided by the estimated net cash from operating activities per share Alaris expects to generate over the same twelve month period (after giving effect to the impact of all information disclosed as of the date of this report).

Actual Payout Ratio: Actual Payout Ratio refers to Alaris' total cash dividends paid during the period (annually or quarterly) divided by the actual net cash from operating activities Alaris generated for the period.

Tangible Net Worth refers to the sum of shareholders' equity less intangibles.

The Non-IFRS measures should only be used in conjunction with the Corporation's condensed consolidated interim financial statements, excerpts of which are available below, complete versions of these statements are available on SEDAR at www.sedar.com.

OVERVIEW

The Corporation earns its revenues by providing capital to private businesses (individually, a "**Private Company Partner**" and collectively the "**Partners**") in exchange for royalties, preferred distributions and interest ("**Distributions**") received in regular monthly payments that are contractually agreed to between the Corporation and each Private Company Partner. These payments are set for twelve months at a time and adjusted annually based on the audited performance of each Private Company Partner's gross revenue, gross margin, same store sales, or other similar "top-line" performance measure. The Corporation has limited general and administrative expenses with only fourteen employees.

RESULTS OF OPERATIONS

Quarter ended June 30, 2018 Compared to Quarter ended June 30, 2017

Three Months Ended June 30	2018	2017	% Change
Revenue per share	\$0.78	\$0.62	+25.8%
Normalized EBITDA per share	\$0.56	\$0.52	+7.7%
Net cash from operating activities per share	\$0.62	\$0.41	+51.2%
Dividends per share	\$0.405	\$0.405	+0.0%
Basic earnings per share	\$0.74	\$0.39	+89.7%
Fully diluted earnings per share	\$0.73	\$0.38	+92.1%
Normalized basic earnings per share	\$0.47	\$0.39	+20.5%
Weighted average basic shares outstanding (000's)	36,486	36,483	

For the three months ended June 30, 2018, revenue per share increased by 25.8% due to full distributions from Labstat (2017 distributions were accrued based on the cash flow sweep) in addition to \$4.3 million of previously forgone distributions (a result of the difference in fixed distributions and the cash flow sweep, instituted in 2013) that was negotiated to be paid only on exit, therefore a direct increase in book value. In addition, the three month period included distributions from new partners SBI, Accscient, Heritage and Fleet, follow on contributions into Federal Resources, Sandbox, Accscient and ccComm, and positive resets from the majority of our portfolio. This was partially offset by the profitable redemptions of Sequel and Agility. The redemptions in this quarter were late in June and thus immaterial to Q2 2018 distributions. Excluding the distributions received from the redemption of Labstat, revenue was \$24.1 million, an increase of 11.1%.

Normalized EBITDA of \$0.56 per share increased by 7.7% compared to the three months ending June 30, 2017 due to higher distributions, partially offset by higher corporate expenses and legal and accounting fees. Net cash from operating activities was \$0.62 per share, an increase of 51.2% compared to the three months ended June 30, 2017. The increase is a result of higher distributions from the collection of \$4.3 million of distributions from Labstat received on redemption, partially offset by higher corporate costs. Dividends paid were \$0.405 per share during three months ended June 30, 2018, an Actual Payout Ratio of 65.0% for the period. Excluding the one-time collection of the forgone distributions from Labstat, the payout ratio would have been 80.1%.

Total Revenue	\$ 28,442	\$ 22,784	+24.8%	

Finance costs were \$1.8 million compared to \$1.1 million in the prior period, a 67.3% increase due to higher interest rates on US and CDN denominated debt and a higher weighted average debt outstanding (average outstanding debt of \$136.6 million for the three months ending June 30, 2018 versus \$99.4 million for the comparable period in 2017).

Salaries and benefits were \$1.3 million in the period, a decrease of -6.4% compared to \$1.4 million in the prior year period. The decrease is due to lower variable compensation. Corporate and office expenses were \$1.0 million in the period a decrease of -0.6% compared to the prior year period.

Legal and accounting fees were \$0.7 million in the period, an increase of 96.8% compared to \$0.3 million in the prior year period. The increase is due to the Corporation incurring higher accounting and legal fees related to existing partners, legal fees on prospective deals which were expensed and corporate matters in 2018 (including the KMH strategic process, the Kimco restructuring and some additional consulting costs incurred on behalf of partner companies as part of an increased effort to support our current portfolio).

For the three months ended June 30, 2018 the Corporation incurred stock-based compensation expenses of \$0.8 million (2017 - \$0.9 million) which includes: \$0.5 million (non-cash expense) for the RSU Plan expense that is to be amortized over the thirty-six month vesting period of the plan (2017 - \$0.6 million); and \$0.3 million (non-cash expense) for the amortization of the fair value of outstanding stock options (2017 - \$0.3 million).

The Corporation recorded earnings of \$26.9 million, EBITDA of \$34.4 million and Normalized EBITDA of \$20.3 million for the three months ended June 30, 2018 compared to earnings of \$14.1 million, EBITDA of \$18.1 million and Normalized EBITDA of \$19.1 million for the three months ended June 30, 2017. The 6.7% increase in Normalized EBITDA is a result of the full distributions from Labstat (comparable period was accrued under the sweep mechanism), the addition of new partners (Heritage, SBI, Accscient), follow on contributions into existing partners (Federal Resources, Sandbox, Accscient and ccComm) in addition to top of the collar resets for the majority of the portfolio, partially offset by the redemptions (Sequel and Agility) and higher corporate expenses.

For the six months ended June 30, 2018, revenue per share increased by 19.2% due to full distributions received from Labstat plus an additional \$4.3 million of previously forgone distributions received as part of their redemption, in addition to new partners SBI, Accscient and Heritage, follow on contributions into Federal Resources, Sandbox, Accscient and ccComm, full distributions from Labstat and positive resets from the majority of our portfolio. This was partially offset by the profitable redemptions of Sequel and Agility.

Normalized EBITDA of \$1.11 per share increased by 8.8% compared to the six months ending June 30, 2017 due to higher distributions, partially offset by higher corporate expenses and legal and accounting fees. Net cash from operating activities was \$1.21 per share, an increase of 47.6% compared to the six months ended June 30, 2017. The increase is a result of higher distributions (including Labstat as described above), the collection of US\$2.9 million of unpaid distributions upon redemption of the Agility units, the 2017 Labstat sweep of \$4.2 million and the timing of tax payments. Dividends paid were \$0.81 per share during six months ended June 30, 2018, an Actual Payout Ratio of 67.1% for the period. Excluding the one-time collection of the Agility accrued receivables and the forgone distributions from Labstat, the payout ratio would have been 80.5%.

Finance costs were \$4.5 million compared to \$3.1 million in the prior period, a 47.0% increase due to higher interest rates on US and CDN denominated debt and a higher weighted average debt outstanding (average outstanding debt of \$147.8 million for the six months ending June 30, 2018 versus \$99.9 million for the comparable period in 2017).

Salaries and benefits were \$2.0 million in the period, a decrease of -2.2% compared to \$2.1 million in the prior year period. The decrease is due lower variable compensation partially offset by some market increases to salaries for certain members of the management team.

Corporate and office expenses were \$2.0 million in the period, an increase of 12.2% compared to \$1.8 million in the prior year period. The increase is due to the timing of annual public company costs and one-time IT spending.

Legal and accounting fees were \$1.8 million in the period, an increase of 102.8% compared to \$0.9 million in the prior year period. The increase is due to the Corporation incurring higher accounting and legal fees related to existing partners, legal fees on prospective deals which were expensed and corporate matters in 2018 (including the KMH strategic process, the Kimco restructuring and some additional consulting costs incurred on behalf of partner companies as part of an increased effort to support our current portfolio).

Private Company Partner Update

The Corporation's interest in each of the Partners consists of a preferred partnership interest, preferred LLC or other equity interest, a loan, or ownership of intellectual property with a return based on distributions or royalties that are adjusted annually based on a formula linked to a top-line metric (i.e. sales, gross profit, same store sales) rather than a residual equity interest in the net earnings of such entities. The Corporation has no involvement in the day to day business of each Private Company Partner and has no rights to participate in management decisions. The Corporation does not have any significant influence over any of the Partners nor does it have the ability to exercise control over such Partners except in

limited situations of uncured events of default. Instead, the Corporation has certain restrictive covenants in place designed to protect the ongoing payment of the distributions payable to Alaris. In addition, the Partners are required to obtain the consent of Alaris in certain circumstances prior to entering into a material transaction or other significant matters outside the normal course of business. Such transactions include, without limitation, acquisitions & divestitures, major capital expenditures, certain changes in structure, certain changes in executive management, change of control and incurring additional indebtedness.

The following is a summary of each of the Partners recent financial results. Included in this summary will be a comment on the Partners' Earnings Coverage Ratio ("ECR"). This information, other than with respect to fiscal year end, is based on unaudited information provided by Private Company Partner management. Therefore, each ECR, based on the most current information for the trailing twelve months, will be identified as part of a range. The ranges are: less than 1.0x, 1.0x to 1.2x, 1.2x to 1.5x, 1.5x to 2.0x and greater than 2.0x. A result greater than 1 is considered appropriate and the higher the number is, the better the ratio.

Additionally, the Corporation has disclosed the percentage of current run rate revenue based on the expected distributions from each Partner for the next twelve months based on information at July 23, 2018. Interest from promissory notes is 2.6% of run rate distributions from Partners.

Alaris Portfolio

Annual Distribution	Total run rate distributions of \$89.9 million of which over 90.0% is USD denominated (US\$62.2 million)
Description	<p>The Corporation investment thesis is to partner with companies with;</p> <ul style="list-style-type: none"> (i) Established companies with a history of success: <ul style="list-style-type: none"> • Required services or products in mature industries • Low risk of obsolescence (no high tech) • Non-declining asset bases (no exploration companies) • The average age of partners is approximately 18.5 years (ii) Proven track record of free cash flow. (iii) Low levels of debt - Allows excess cash flow to remain in the business to support growth and the Alaris distribution rather than paying principal and interest on debt. (iv) Low levels of capital expenditures required to maintain/grow a business - None of our partners are required to reinvest much of their cash flow back into their operations as they are typically asset light businesses with minimal equipment requirements. (v) Management continuity and quality management teams - The Corporation has invested in 27 partners since inception, exited our investment in thirteen partners over that time with ten yielding highly positive results displayed by a total return of 74% and a median IRR of 21%.
Contribution History	The Corporation has invested over \$1 billion into 27 partners and 58 tranches of financing. Including an average of approximately \$150 million over the past five fiscal years (2013 – 2017).
Performance	The Corporation discloses an ECR to provide information on the financial health of our partners. The Corporation has three partners with ECR greater than 2.0x, two in the 1.5x-2.0x range, five between 1.2x-1.5x and four in the 1.0x-1.2x range.
Capital Structure	As a preferred equity investor we have invested in a diverse group of capital structures and we pride ourselves on achieving the optimal capital structure for our partners so both Alaris and our partners benefit. Of our existing portfolio seven of our fourteen have no debt, three partners have less than 1.0x Debt to EBITDA and four partners have debt greater than 1.0x Debt to EBITDA.
Reset	The annual distribution reset is another feature of our capital which we view as win-win. It aligns our interest with our partners while providing the majority of the upside to the entrepreneurs who create the business value. Of the partners which had resets effective in 2018 (mostly January 1 st), all had positive resets with six hitting the top of their collar (+5% to 6%).

Accscient

Annual Distribution	US\$3.4 million (or 5.0% of run rate revenue)
Description	Accscient provides IT Staffing, Consulting, and Outsourcing services and specializes in Digital Infrastructure Management, Enterprise Resource Planning, Business Intelligence and Database Administration.
Contribution History	In June 2017, the Corporation contributed US\$20.0 million into Accscient LLC (“Accscient”) (US\$14.0 million permanent units and US\$6.0 million redeemable units). During the three month period ending June 30, 2018 the Corporation contributed an additional US\$3.0 million to partially fund an acquisition which broadens their IT service offerings. In exchange for the contribution, the corporation is entitled to an annualized distribution of US\$0.4 million.
Performance	Based on unaudited statements provided by management for the four months ended April 30, 2018, revenue and EBITDA are consistent with the comparable period. The Accscient Distribution will be reset for the first time on January 1, 2019 based on the percentage change in gross profit from 2018 vs 2017 and has a collar of plus or minus 5%.
Fair Value	The fair value of the Accscient units remains unchanged at June 30, 2018. The fair value of the Accscient units will fluctuate each quarter with foreign exchange rates but the underlying valuation of the Accscient units is evaluated each quarter.
ECR	The Earnings Coverage Ratio is consistent with last quarter and remains between 1.2x and 1.5x.

ccComm

Annual Distribution	US\$2.3 million (or 3.4% of run rate revenue)
Description	ccComm is a Sprint retailer with over 97 locations throughout the Northwest and Central U.S.
Contribution History	In January 2017, the Corporation purchased preferred units in ccComm for US\$4.0 million. The Corporation contributed an additional US\$2.2 million in August 2017 to complete an acquisition of additional Sprint retail locations. During the three month period ending June 30, 2018 the Corporation contributed an additional US\$10.0 million to fund the acquisition of additional Sprint locations. In exchange for the contribution, the corporation is entitled to an annualized distribution of US\$1.4 million.
Performance	ccComm’s revenue has increased and EBITDA has decreased for the four months ended April 30, 2018, compared to the same period in 2017. Distributions (currently US\$0.93 million) will increase or decrease based on net revenue to a collar of +/- 6%. Based on audited results, the ccComm Distribution reset +6%, effective January 1, 2018 but only on the original contribution of US\$4.0 million.
Fair Value	The fair value of the ccComm units will fluctuate each quarter with foreign exchange rates but the underlying valuation of the ccComm units is evaluated each quarter. The fair value of ccComm units remains unchanged at June 30, 2018.
ECR	The Earnings Coverage Ratio at June 30, 2018 has decreased from last quarter and is now between 1.2x and 1.5x.

DNT Construction

Annual Distribution	US\$11.5 million (or 16.8% of run rate revenue)
Description	DNT specializes in turnkey civil construction services to residential, commercial and municipal end markets including excavation, the installation of wet and dry utilities such as electrical, gas, sewage and water in the Austin, San Antonio corridor.
Contribution History	In June 2015, the Corporation purchased preferred units in DNT, for an aggregate acquisition cost of US\$70.0 million (US\$40.0 million permanent units and US\$30.0 million redeemable units). During the three months ended June 30, 2018, DNT repaid US\$0.2 million of the outstanding redeemable units as required under their annual redemption calculation, bringing the total redeemed units to \$2.2 million since the investment date.
Performance	Based on unaudited financial statements provided by management for the four months ended April 30, 2018, DNT's revenue is ahead and EBITDA are behind the comparable period. Annual increase or decrease in DNT's distribution to Alaris is subject to a collar of +/- 6% and is based on gross revenues. Based on audited results, the 2018 DNT distributions increased +6% effective January 1, 2018.
Fair Value	There was no change in the fair value of the DNT units during the three months ending June 30, 2018. The fair value of the DNT units in Canadian dollars will fluctuate each quarter with foreign exchange rates.
ECR	The Earnings Coverage Ratio has increased slightly since last quarter and remains just below 1.5x (between 1.2x and 1.5x).

Federal Resources

Annual Distribution	US\$10.7 million (or 15.7% of run rate revenues)
Description	Federal Resources is a leading value-added provider of mission critical products and solutions to defense, first responder, homeland security and maritime end users in the United States.
Contribution History	In June 2015, the Corporation announced a US\$7.0 million subscription for preferred stock (the "FED Units") of Federal Resources and a US\$40.0 million secured subordinated loan (the "FED Loan") to Federal Resources, for an aggregate cost of US\$47.0 million. In exchange for the Federal Resources Units and Loan, the Corporation was initially entitled to a combined US\$7.1 million of annual distributions. In April 2016 and December 2017 Alaris made additional contributions of US\$6.5 million and US\$13.5 million in subsidiaries of Federal Resources. The additional contributions were used to fund or partially fund acquisitions in their industry.
Performance	Based on unaudited financial statements provided by management for the four months ended April 30, 2018, Federal Resource's revenue and EBITDA are both well ahead of the comparable period. Based on audited results provided by Federal Resources management, the Corporation's distribution reset +6% effective January 1, 2018.
Fair Value	The fair value of the Federal Resources units were increased by US\$1.2 million during the three

	months ended June 30, 2018 as revenues continue to grow and we expect another positive reset in 2019. The fair value of the Federal Resources investment in Canadian dollars will fluctuate each quarter with foreign exchange rates.
ECR	The Earnings Coverage Ratio for Federal Resources has increased since the last quarter and remains between 1.2x and 1.5x.

Fleet

Annual Distribution	US\$2.1 million (or 3.1% run rate revenue)
Description	Fleet serves America’s top truck fleets and guarantees the lowest cost of operation by providing truck leasing and matching proprietary data driven IT processes with fleet analytics using the latest eco-efficient clean diesel technology to achieve optimum vehicle productivity, while reducing operating costs.
Contribution History	On June 15, 2018 the Corporation entered into subscription and operating agreements with Fleet, pursuant to which Alaris made the US\$15.0 million Fleet Contribution in exchange for preferred units in Fleet (the “Fleet Units”), which entitle Alaris to the US\$2.1 million Fleet Distribution for the first full year following the transaction. Fleet has the option to pay a portion of the Fleet Distribution, subject to a maximum of 2% (US\$0.3 million in the first year) of the annualized yield in any given year as payment-in-kind (“PIK”) provided that any amounts subject to the PIK must be paid every three years. US\$7.5 million of the Fleet Units are redeemable at par at any time. The Fleet Distribution will be adjusted annually (commencing January 1, 2020) based on the change in net revenues, subject to a 6% collar. The Fleet Contribution was used to fund continued growth and provide partial liquidity to existing shareholders.
Performance	There was no change in Fleet’s financial performance from the date of closing.
Fair Value	The contribution closed in June 2018 and there was no change in the fair value of the Fleet units during the three months ending June 30, 2018. The fair value of the Fleet units in Canadian dollars will fluctuate each quarter with foreign exchange rates.
ECR	The Earnings Coverage Ratio is consistent with the date of closing at between 1.5x to 2.0x range.

Heritage Restoration

Annual Distribution	US\$2.3 million (or 3.3% of run rate revenue)
Description	Heritage Restoration, Holdings, LLC (“Heritage”) is a leading specialty contractor providing masonry and masonry related services to the commercial building industry. With a focus on the restoration of existing structures, Heritage’s services include masonry procurement, installation and restoration, concrete structure restoration, waterproofing and coating repair, Heritage provides quality customer service and workmanship throughout the entire New England area, employing over 100 highly skilled masons; carpenters; and laborers during peak times.
Contribution History	On January 23, 2018, the Corporation entered into subscription and operating agreements with Heritage, pursuant to which the Corporation invested US\$15.0 million (“Heritage Contribution”) in exchange for preferred units in Heritage (the “Heritage Units”). The Corporation is entitled to an annual distribution of US\$2.3 million (“Heritage Distribution”) for the first full year following the transaction, which equates to an initial yield of 15%. US\$3.0 million of the Heritage Units are redeemable at par at

	any time. The Heritage Distribution will reset with a collar of +/- 6% annually based on gross revenue.
Performance	Based on unaudited financial statements provided by management for the four months ended April 30, 2018, Heritage's revenue and EBITDA have both increased since the prior period.
Fair Value	The fair value of the Heritage Units remains unchanged during the three months ending June 30, 2018. The fair value of the Heritage units in Canadian dollars will fluctuate each quarter with foreign exchange rates.
ECR	The Earnings Coverage Ratio for Heritage has improved from the time of the investment and is now above 2.0x.

Kimco

Annual Distribution	US\$1.2 million (or 1.8% of run rate revenue). Full annual distribution would be US\$5.1 million.
Description	Kimco has been providing commercial janitorial services since the 1970s. Kimco provides janitorial services to over 375 customers which range in size from multi-location national customers to regional single-site customers.
Contribution History	<p>In June 2014, the Corporation purchased preferred units in Kimco for an aggregate acquisition cost of US\$29.2 million. The Corporation purchased additional preferred units for US\$3 million in December 2015 and US\$2 million in November 2016.</p> <p>The Corporation contributed an additional US\$4.0 million in 2017, by way of an unsecured promissory note, to reduce Kimco's total senior debt outstanding. Kimco is currently paying 8% per annum on the debt.</p> <p>In the six months ended June 30, 2018, the Corporation loaned US\$6.0 million to replace Kimco's existing subordinated debt from a third party. The Corporation will receive interest of 12% per annum on the outstanding debt.</p>
Performance	<p>In March 2018, Kimco completed a debt refinancing, resulting in a new senior lender replacing existing senior debt and subordinated debt. The Kimco refinancing closed on March 30th, 2018 and, as a result, Kimco commenced monthly distributions to Alaris of USD\$100,000 (USD\$1.2 million annually) in April 2018. In addition to the fixed monthly distributions, Alaris has put in place a quarterly sweep mechanism to provide for additional distributions; the quarterly sweep is subject to satisfying a prescribed fixed charge coverage ratio and a minimum liquidity threshold. No sweep payments are expected in the next few quarters. The company has experienced some liquidity restrictions with its senior lender and the Corporation may provide a loan of up to US\$4.0 million to Kimco in Q3 2018 which can be repaid once liquidity restrictions are resolved. Current distributions and interest payments are expected to continue to be paid.</p> <p>Based on unaudited financial statements provided by Kimco management for the four months ended April 30, 2018, revenue and EBITDA are behind the prior year due to some customer turnover and higher G&A.</p>
Fair Value	The fair value of the Kimco units were decreased by US\$2.7 million during the three months ended June 30, 2018 as the Corporation has decreased its expectations for timing on the cash flow sweep mechanism. The fair value of the Kimco units in Canadian dollars will fluctuate each quarter with foreign exchange rates but the underlying fair value will be evaluated each quarter in USD.
ECR	The Earnings Coverage Ratio for Kimco under the new capital structure with partial payments of US\$1.2 million annually has decreased since last quarter and is now between 1.0x and 1.2x. When including Alaris' full distributions the Earnings Coverage Ratio remains below 1.0x.

LMS Reinforcing Steel Group

Annual Distribution	CAD\$5.2 million (or 5.8% of run rate revenue)
Description	LMS is a western Canadian concrete reinforcing steel fabricator and installer with operations in British Columbia, Alberta and Southern California.
Contribution History	The Corporation's original contribution into LMS was in 2007 subsequent to which it has since contributed a total of CAD\$54 million. The Corporation completed a follow on contribution in 2016 (to a U.S. affiliate) of US\$4.35 million to help LMS fund an acquisition.
Performance	Based on unaudited financial statements prepared by LMS management for the four months ended April 30, 2018, revenue and EBITDA are ahead of the comparable period. Based on audited financial statements LMS gross profit increased 12.4%, increasing the Corporation's distribution by that amount effective January 1, 2018.
Fair Value	The fair value of the LMS Canadian units and LMS US units were increased by \$2.6 million during the three and six month period ending June 30, 2018 as the audited increase exceeded expectations. The fair value of the LMS US units in Canadian dollars will fluctuate each quarter with foreign exchange rates.
ECR	The Earnings Coverage Ratio for LMS is consistent with last quarter and is between 1.2x and 1.5x.

Providence Industries

Annual Distribution	US\$4.7 million (or 6.9% of run rate revenues)
Description	Providence is a leading provider of design, engineering, development, manufacturing and sourcing services for international apparel companies and retailers.
Contribution History	In April 2015, the Corporation contributed US\$30.0 million to Providence.
Performance	Based on unaudited financial statements provided by management for the four months ended April 30, 2018, Providence’s revenue and EBITDA have decreased versus the comparable period. Based on audited results the 2018 Providence distribution increased +5% effective January 1, 2018.
Fair Value	The fair value of the Providence units were decreased US\$1.5 million during the three months ending June 30, 2018 as a customer that drove the 5% increase in 2017 has a material impact on their same customer sales. Revenue from the customer are off compared to the prior year. The fair value of the Providence units in Canadian dollars will fluctuate each quarter with foreign exchange rates.
ECR	The earnings coverage ratio for Providence has decreased since last quarter and remains well over 2.0x.

Sandbox

Annual Distribution	US\$5.4 million (or 8.0% of run rate revenues)
Description	Sandbox offers a wide range of marketing and advertising services including strategic marketing and planning, creative development for all media and digital strategy solutions including CRM and data analytics for clients in a variety of industries within the US and Canada.
Contribution History	In March 2016, the Corporation purchased preferred units in Sandbox for an aggregate acquisition cost of US\$22 million. The Corporation contributed an additional US\$6.0 million in September 2017 to finance an acquisition completed by Sandbox and a further US\$7.0 million in December 2017 to fund a performance earn out. The Sandbox distribution will reset annually +/-6% based on net revenue.
Performance	Based on unaudited financial statements provided by Sandbox management for the four months ended April 30, 2018, revenue and EBITDA are consistent with the comparable period. Based on audited results, the 2018 Sandbox distribution increased +2% effective January 1, 2018.
Fair Value	The fair value of the Sandbox units increased by US\$1.4 million during the three months ending June 30, 2018 due to the positive reset confirmed through audited financial statements. The fair value of the Sandbox units in Canadian dollars will fluctuate each quarter with foreign exchange rates.
ECR	The Earnings Coverage Ratio has decreased slightly since last quarter and is now between 1.0x and 1.2x.

SCR Mine Services

Annual Distribution	CAD\$1.8 million (or 2.0% run rate revenue). Full annual distribution would be CAD\$5.6 million.
Description	SCR Mining and Tunneling, LP (“SCR”) provides mining, surface and underground construction, electrical and mechanical services to the Canadian mining industry.
Contribution History	In May 2013, the Corporation purchased partnership units in SCR for an aggregate acquisition cost of \$40 million. The SCR distribution will reset +/-6% based gross revenue.
Performance	Based on unaudited financial statements provided by management for the four months ended April 30, 2018, SCR’s revenue has increased and EBITDA is flat versus the comparable period. SCR has significant cash on its balance sheet to invest in capex and working capital as the business continues to rebound. Effective April 1, 2018 the Corporation and SCR agreed to increase the fixed monthly distribution from \$100 thousand per month to \$150 thousand (\$1.8 million annually) along with a variable cash sweep based on available free cash flow.
Fair Value	There was no change in the fair value of the SCR units during the three or six months ending June 30, 2018.
ECR	The Earnings Coverage Ratio for SCR has declined slightly since the last quarter and remains below 1.0x when considering full distributions but at the current distribution rate of \$1.8 million the Earnings Coverage Ratio is between 1.0x and 1.2x.

SBI

Annual Distribution	US\$11.1 million (or 16.2% of run rate revenue)
Description	SBI is a management consulting firm specializing in sales and marketing that is dedicated to helping companies reach their sales objectives. SBI conducts in-depth market research and partners with business leaders to develop strategies that enhance performance and drive results. Through evidence-based methods, SBI creates actionable procedures that, once embraced and adopted, result in lasting success.
Contribution History	In August 2017, the Corporation contributed US\$85.0 million in SBI, in return for an annualized distribution of US\$11.1 million. The distribution will reset based on gross revenue with a collar of +/- 8%, with the first reset in January 2019. The SBI Contribution is made up of US\$75.0 million of permanent units as well as US\$10.0 million of redeemable units. The Redeemable Units can be redeemed at par at any time up to the third anniversary following the closing of the SBI Contribution at SBI’s discretion. After the third anniversary the Redeemable Units will have the same repurchase metrics as the Permanent Units.
Performance	Based on unaudited information provided by SBI management for the five months ended May 31, 2018, revenues are ahead and EBITDA is trailing the prior year.
Fair Value	The fair value of the SBI units were unchanged during the four month period ending April 30, 2018. The fair value of the SBI units in Canadian dollars will fluctuate each quarter with foreign exchange rates.
ECR	The Earnings Coverage Ratio for SBI is consistent with last quarter at between 1.0x and 1.2x. SBI has no senior debt and a strong backlog. The Corporation expects an increasing Earnings Coverage Ratio over the coming periods based on SBI’s current book of business.

Unify

The Unify Distribution resets annually +/-5% based on gross revenue.
Performance	Based on unaudited financial statements prepared by Unify management for the five months ended May 31, 2018, revenue and EBITDA have increased versus the comparable period and exceeded forecast amounts. Based on audited financial results the Unify Distribution reset +2% effective January 1, 2018.
Fair Value	There was no change in the fair value of the Unify units during the three and six months ending June 30, 2018. The fair value of the Unify units in Canadian dollars will fluctuate each quarter with foreign exchange rates.
ECR	The Earnings Coverage Ratio for Unify has increased since last quarter and remains over 2.0x.

REDEMPTION OF PREFERRED UNITS

Agility Health – Q1 2018

On February 28, 2018, the Corporation successfully redeemed all of its units in Agility as a result of the sale of Agility to a third party. Gross proceeds to Alaris from the Agility Sale consisted of: (i) US\$22.2 million for the preferred units Alaris holds in Agility LLC, which includes a premium of US\$2.1 million over Alaris’ original cost of US\$20.1 million; (ii) US\$2.9 million for all unpaid distributions up to February 28, 2018; and (iii) US\$1.6 million for a loan outstanding, including all interest accrued on such loan. US\$1.5 million of the Repurchase Price paid to Alaris was placed in escrow for 18 months to satisfy indemnification obligations under the transaction and is recorded in trade and other receivables. Following the escrow period any remaining escrowed funds will be paid to Alaris.

Planet Fitness partial redemption – Q2 2018

On May 11, 2018, the Corporation received a partial redemption of US\$25.0 million from Planet Fitness in exchange for preferred units which had an associated US\$3.3 million of annual distributions. The gain on the partial redemption was recorded as a fair value increase as at and for the three months ended March 31, 2018 of \$3.5 million CAD. Subsequent to the transaction, the Corporation is entitled to US\$3.5 million of run rate distributions on a remaining cost basis of US\$20.6 million and fair value of US\$23.5 million.

Labstat – Q2 2018

On June 25, 2018, the Corporation received \$61.3 million as a result of the Labstat redemption, which represents a premium of \$13.6 million over Alaris’ original cost of \$47.7 million. The fair value of the units were previously increased to reflect the maximum repurchase price, therefore no gain was recorded at the time of disposition.

Concurrent with the redemption of the preferred units, the Corporation also received \$4.3 million for previously forgone distributions. The forgone distributions were a result of the Labstat annual distributions being determined by a cash flow

sweep from 2013 to 2017. The amounts received were recognized as revenue during the three month period ended June 30, 2018. The Corporation had previously not assigned any value on its balance sheet to the collection of the \$4.3 million of forgone distributions because the amount and timing were dependent on the redemption of the preferred units.

As part of the redemption the Corporation received the repayment of the \$3.7 million promissory note outstanding and \$0.3 million of accrued interest. Prior to the redemption the Corporation also received the 2017 cash sweep of \$4.2 million.

End of the Roll – Q2 2018

On June 29, 2018, the Corporation received \$12.6 million as a result of the End of the Roll repurchasing the outstanding intangible asset. The End of the Roll intangible asset had a carrying value of \$6.0 million and an original cost of \$7.2 million. The Corporation recognized a \$6.5 million gain during the three month period ended June 30, 2018.

ASSETS HELD FOR SALE

On June 15, 2018, the Corporation exercised its step in rights and assumed voting control over Group SM as a result of their failure to meet certain covenants in our operating and promissory note agreements.

The Corporation exercised its step in rights primarily to control the timing of the strategic process of recapitalizing Group SM and maximize the proceeds to which Alaris is entitled. Immediately prior to the assumption of control, Alaris' carrying value of its investment and promissory notes with Group SM was limited to \$10.0 million of secured promissory notes. All other financial interests in Group SM had previously been impaired or written off.

The assumption of voting control of Group SM required Alaris to account for the transaction as a business combination.

Voting control of Group SM was obtained with the sole intent of having the investment sold in the near term. A strategic process is currently underway and the Corporation has assessed that it is likely the investment will be disposed of within the next 12 months. Accordingly, the acquired business meets the definition of discontinued operations and has been presented as assets and liabilities held for sale in these interim financial statements.

In such a situation when a group is acquired exclusively with a view to subsequently dispose, the assets or disposal group are initially measured at the lower of its carrying amount and fair value less costs to sell. As of the date of these interim financial statements, the fair values of the assets and liabilities acquired have not yet been finalized. However, evidence obtained from interested parties in the strategic process that is underway supports that the Corporation is expecting to recover its \$10.0 million secured promissory note. Accordingly the estimate of the fair value of the net assets acquired is \$10.0 million.

Given the Corporation does not expect to recover its investment in preferred units, unsecured promissory notes or other amounts receivable from Group SM, these liabilities on Group SM's books have been recognized at their estimated fair value of zero in the purchase price allocation. The fair value of the remaining net assets acquired are \$10.0 million, consistent with their fair value reported as of March 31, 2018.

Assets acquired relate primarily to working capital and intangible customer lists. Liabilities acquired relate primarily to working capital, Alaris' secured promissory note and \$26.8 million in other third party debt. The preliminary purchase allocation is based on level 3 fair value measures obtained primarily from third party offers through the strategic process. The results of operations of Group SM in the period from June 15, 2018 to June 30, 2018 are included in interest and other income in the statement of comprehensive income/(loss). Group SM results of operations will be included as "results from discontinued operations" on the statement of comprehensive income/(loss) at future reporting dates, if material and applicable.

LIQUIDITY AND CAPITAL RESOURCES

As at June 30, 2018 the Corporation has a \$300 million credit facility with a syndicate of Canadian chartered banks, the facility has a four year term with a maturity date in September 2021. During the period, an additional bank joined the lending syndicate and the facility was increased from \$280 million to \$300 million and at the same time the accordion feature was reduced from \$70 million to \$50 million. The interest rate is based on a combination of the CAD Prime Rate ("Prime"), Bankers' Acceptances ("BA"), US Base Rate ("USBR") and LIBOR and the applicable spread determined by the

Corporations Funded Debt to Contracted EBITDA. The Corporation realized a blended interest rate of 5.5% for the six months ended June 30, 2018. At June 30, 2018, the facility was \$82.1 million drawn.

At June 30, 2018, the Corporation met all of its covenants as required by the facility. Those covenants include a maximum funded debt to contracted EBITDA of 2.5:1 (actual ratio is 1.03:1 at June 30, 2018); minimum Tangible Net Worth of \$450.0 million (actual amount is \$614.5 million at June 30, 2018); and a minimum fixed charge coverage ratio of 1:1 (actual ratio is 1.22:1 at June 30, 2018). The Corporation had US\$62.2 million of USD denominated debt as of June 30, 2018 (December 31, 2017 - US\$112.7 million).

In each of the first six months of 2018 and 2017, the Corporation declared a dividend of \$0.135 per common share, \$0.81 per share and \$29.6 million in aggregate (2017 - \$0.81 per share and \$29.5 million in aggregate).

The Corporation had 36,481,247 voting common shares outstanding at June 30, 2018. The Corporation had working capital of approximately \$29.9 million at June 30, 2018. Under the current terms of the various commitments, the Corporation has the ability to meet all current obligations as they become due.

WORKING CAPITAL

The Company's working capital (defined as current assets, excluding promissory notes and investment tax credits receivable, less current liabilities) at June 30, 2018 and December 31, 2017 is set forth in the tables below.

Working Capital	30-Jun-18	31-Dec-17
Cash	\$ 27,621	\$ 35,475

Income tax payable	5,494	588
Total Current Liabilities	\$ 40,059	\$ 7,217
Net Working Capital	\$ 29,894	\$ 43,695

Management of the Corporation believes that the Corporation is able to meet its obligations as they become due.

FINANCIAL INSTRUMENTS

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument to another entity. Upon initial recognition all financial instruments, including derivatives, are recognized on the balance sheet at fair value. Subsequent measurement is then based on the financial instruments being classified into one of two categories: amortized cost and fair value through profit or loss (“FVTPL”). The Corporation has designated its financial instruments into the following categories applying the indicated measurement methods:

Financial Instrument	Category	Measurement Method
Cash and cash equivalents	Amortized cost	Amortized cost
Trade and other receivables	Amortized cost	Amortized cost
Promissory notes and other receivable	Amortized cost	Amortized cost
Investments at fair value	At fair value through profit or loss	At fair value through profit or loss
Accounts payable and accrued liabilities	Amortized cost	Amortized cost
Loans and borrowings	Amortized cost	Amortized cost
Foreign exchange contracts	At fair value through profit or loss	At fair value through profit or loss

The Corporation will assess at each reporting period whether there is a financial asset that is impaired using the expected credit loss model. An impairment loss is included in net earnings.

The Corporation holds derivative financial instruments to hedge its foreign currency exposure. The Corporation has entered into forward contracts equal to the monthly and quarterly flow of funds from the Corporation’s US investments. The Corporation matches approximately 25-60% over a rolling twelve month period based on scheduled distributions to the Canadian parent and a portion of the scheduled distributions over a rolling 12 to 24 month period based distributions resulting in an economic hedge of the foreign currency exposure. The fair value of the forward contracts will be estimated at each reporting date and any unrealized gain or loss on the contracts will be recognized in profit or loss. As at June 30, 2018, for the next twelve months, the Corporation has total contracts of US\$35.4 million average \$1.2968 CAD. For the following twelve months, the Corporation has total contracts of US\$5.4 million USD average \$1.2635 CAD.

The Corporation records all transaction costs incurred, in relation to the acquisition of investments classified as “available for sale”, as an additional cost of the investment. The Corporation applies trade-date accounting for the recognition of a purchase or sale of cash equivalents and derivative contracts.

The Corporation has the following financial instruments that mature as follows:

30-Jun-18	Total	0-6 Months	6 mo – 1 yr	1 – 2 years	3 – 4 years
Accounts payable and accrued liabilities	\$ (2,187)	\$ (2,187)	\$-	\$-	\$-
Dividends payable	(4,921)	(4,921)	-	-	-
Foreign exchange contracts	(456)	(153)	(192)	(111)	
Liabilities acquired held for sale	(27,000)	(27,000)	-	-	
Income tax (payable) / receivable	(3,268)	(3,268)	-	-

Total	\$ (119,929)	\$ (37,529)	\$ (192)	\$ (111)	\$ (82,096)

The Corporation has sufficient cash on hand to settle all current accounts payable, accrued liabilities, dividends payable and all scheduled interest payments on the senior debt. In the event the senior debt is not renewed and principal payments become due, the debt would be refinanced, or alternatively, management expects that there would be sufficient cash flow from operations and expected Partner redemptions to meet all required repayments.

INTERNAL CONTROLS OVER FINANCIAL REPORTING

The Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”) are responsible for establishing and maintaining disclosure controls and procedures (“DC&P”) and internal control over financial reporting (“ICFR”) for the Corporation.

DC&P are designed to provide reasonable assurance that material information relating to the Corporation is made known to the CEO and CFO by others, particularly in the period in which the annual filings are being prepared, and that information required to be disclosed in documents filed with securities regulatory authorities is recorded, processed, summarized and reported within the time periods specified in securities legislation, and includes controls and procedures designed to ensure that such information is accumulated and communicated to the Corporation's management, including the CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure. ICFR are designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS. The Corporation follows the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") 2013 framework.

Management, including the CEO and CFO, does not expect that the Corporation's DC&P and ICFR will prevent or detect all misstatements or instances of fraud. The inherent limitations in all control systems are such that they can provide only reasonable, not absolute, assurance that all control issues, misstatements or instances of fraud, if any, within the Corporation have been detected. There was no change to the Corporation's ICFR that occurred during the most recent interim period that has materially affected, or is reasonably likely to materially affect, the Corporation's ICFR.

SUMMARY OF CONTRACTUAL OBLIGATIONS

Other than the senior credit facility described under "Liquidity and Capital Resources", the only material contractual obligation of the Corporation is its leases for office space. The Corporation agreed to a five-year lease commencing July 2015 at its current location with total leasing commitments of \$1.0 million.

Contractual Obligations	Total	< 1 year	1 – 3 years	4 – 5 years	> 5 years
Long term debt	\$ 82,096	\$ -	\$ -	\$ 82,096	\$-

Total Contractual Obligations	\$ 82,743	\$ 216	\$ 432	\$ 82,096	\$-

CRITICAL ACCOUNTING ESTIMATES AND POLICIES

Management is required to make estimates when preparing the financial statements. Significant estimates include the valuation of intangible assets and preferred limited partnership units, valuation of accounts receivable and promissory notes and income taxes. Refer to the condensed consolidated interim financial statements for the three and six months ended June 30, 2018.

The Corporation capitalizes legal and accounting costs relating to a specific transaction once a letter of intent has been signed. The Corporation's transactions structured as limited partnerships are not amortized and will be assessed for objective evidence of impairment at each balance sheet date. The Corporation's intangible assets are being amortized over the 80-year term of the agreements on a straight-line basis.

RECENT ACCOUNTING PRONOUNCEMENTS

IFRS 9: Financial Instruments

Except as described below, the accounting policies applied in these condensed consolidated interim financial statements are the same as those applied in the Corporation's consolidated financial statements as at and for the year ended December 31, 2017.

The Corporation has initially adopted IFRS 15 Revenue from Contracts with Customers and IFRS 9 Financial Instruments from January 1, 2018.

IFRS 9 introduces a single approach to determine whether a financial asset is measured at amortized cost or fair value and replaces the multiple rules in IAS 39. The approach is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. The IAS 39 measurement

categories for financial assets will be replaced by fair value through profit or loss (“FVTPL”), fair value through other comprehensive income and amortized cost.

IFRS 9 retains most of the IAS 39 requirements for financial liabilities and the Corporation does not anticipate any changes in classification or measurement of financial liabilities on transition to IFRS 9.

A new expected credit loss model for calculating impairment on financial assets classified at amortized costs replaces the incurred loss impairment model used in IAS 39. The new model will result in more timely recognition of expected credit losses.

When financial assets are impaired by credit losses and the entity records the impairment in a separate account (eg. an allowance account used to record individual impairments or a similar account used to record a collective impairment of assets) rather than directly reducing the carrying amount of the asset, it shall disclose a reconciliation of changes in that account during the period for each class of financial assets.

IFRS 9 is effective for years beginning on or after January 1, 2018. Based on the assessments undertaken to date, the only material change will be to the classification and measurement of investments at fair value. Although the investments at fair value will continue to be measured at fair value, fair value gains or losses will be recorded through profit or loss as opposed to through other comprehensive income. Therefore, on transition to IFRS 9, an adjustment of \$17.0 million was made to move cumulative fair value gains or losses from the fair value reserve to retained earnings.

For those financial assets classified and measured at amortized cost, the expected credit loss model will be applied to determine impairment of financial assets. This will therefore apply to trade and other receivables, as well as promissory notes receivable.

There was no material change from its existing methodology in determining credit losses to the expected credit loss model that will be applied to assets classified at amortized cost. Therefore, there was no transition adjustment required.

IFRS 15: Revenue from Contracts with Customers

Revenue from Contracts with Customers provides guidance on revenue recognition and relevant disclosures, and is effective for annual reporting periods beginning on or after January 1, 2018. Due to the fact that the majority of its revenues are generated from financial instruments and therefore not in the scope of IFRS 15, the Corporation does not expect any material changes to its revenue recognition and does not anticipate any transition adjustments.

As a result of the adoption of the standard as outlined above the following there were a number of account policy changes, please see the accompanying condensed consolidated interim financial statements for additional disclosures.

SUMMARY OF QUARTERLY RESULTS

In Q2 2018, the Corporation recorded a \$6.4 million gain on the repurchase of the End of the Roll intangible asset and a partial redemption of the Planet Fitness units and a \$0.5 million increase in the fair value of investments. In Q1 2018, the Corporation recorded a \$1.8 million gain on the redemption of the Agility units, a \$3.5 million increase in the fair value of investments and a \$25.9 million bad debt expense related to the Phoenix and Group SM promissory note and Group SM accounts receivable. The Corporation began recognizing changes in the fair value of investments through earnings, effective January 1, 2018, prior to they were recognized in OCI and therefore not included in the below adjustments. In Q4 2017, the Corporation recorded a \$13.6 million bad debt expense as the remainder of the SHS promissory note was written off and a reserve related to the Kimco, Group SM and Phoenix promissory notes. In Q3 2017, the Corporation recorded \$9.8 million in bad debt expense as unpaid distributions from Group SM were written off, the Corporation also recorded \$41.0 million in

impairment charges as the fair value of the Group SM units were reduced to nil in the period and realized a \$26.6 million gain on the redemption of Sequel.

In Q4 2016, the Corporation recorded a \$0.9 million gain as well as an additional \$5.3 million in distributions on the MAHC redemption. In Q3 2016, the Corporation recorded a \$1.6 million gain on the Solowave redemption that increased revenue and earnings in that period. In each quarter of 2018, 2017 and 2016, unrealized foreign exchange gains and losses have impacted earnings.

OUTSTANDING SHARES

At June 30, 2018, the Corporation had authorized, issued and outstanding, 36,496,247 voting common shares.

For the three and six months ended June 30, 2018, 15,000 shares were issued on the vesting of RSUs issued and no options were issued or exercised. At June 30, 2018, 276,651 RSUs and 2,242,364 stock options were outstanding under the Corporation's long-term incentive compensation plans. The outstanding stock options have a weighted average exercise price of \$25.56, and as of June 30, 2018 all 2,242,364 options outstanding are out of the money.

At July 23, 2018, the Corporation had 36,496,247 common shares outstanding.

INCOME TAXES

In 2015, the Corporation received a notice of reassessment from the Canada Revenue Agency in respect of its taxation year ended July 14, 2009. The Corporation has since received notices of reassessment from the Canada Revenue Agency in respect of its taxation year ended December 30, 2009 through December 30, 2016 (collectively the "Reassessments"). Pursuant to the Reassessments, the deduction of approximately \$121 million of non-capital losses and utilization of \$5.2 million in investment tax credits ("ITC's") by the Corporation was denied, resulting in reassessed taxes and interest of approximately \$44.9 million. Subsequent to filing the notice of objection for the July 14, 2009 taxation year, Alaris received an additional proposal from the CRA pursuant to which the CRA is proposing to apply the general anti avoidance rule to deny the use of non-capital losses, accumulated scientific research and experimental development expenditures and investment tax credits. The proposal does not impact the Corporation's previously disclosed assessment of the total potential tax liability (including interest) or the deposits required to be paid in order to dispute the CRA's reassessments. The Corporation has received legal advice that it should be entitled to deduct the non-capital losses and as such, the Corporation remains of the opinion that all tax filings to date were filed correctly and that it will be successful in appealing such Reassessments. The Corporation intends to continue to vigorously defend its tax filing position. In order to do that, the Corporation was required to pay 50% of the reassessed amounts as a deposit to the Canada Revenue Agency. The Corporation has paid a total of \$19.3 million in deposits to the CRA relating to the Reassessments to date. It is possible that the Corporation may be reassessed with respect to the deduction of its tax pools in respect of its tax filings in respect of the 2017 and 2018 taxation years, on the same basis. The carrying values of the remaining ITC's of \$2.2 million at January 1, 2018 and the ITC's claimed in 2017 of \$1.6 million are at risk should the Corporation be unsuccessful in defending its position. The Corporation anticipates that legal proceedings through the CRA and the courts will take considerable time to resolve and the payment of the deposits, and any taxes, interest or penalties owing will not materially impact the Corporation's payout ratio.

The Corporation firmly believes it will be successful in defending its position and therefore, any current or future deposit paid to the CRA would be refunded, plus interest. The Corporation will continue to file its tax returns by claiming the remaining available investment tax credits in subsequent tax filings.

OUTLOOK

Based on Alaris' current agreements with its partners, the Corporations run rate revenues are estimated at \$89.9 million. Total revenue from partners is expected to be \$22.5 million in Q3 2018. Annual general and administrative expenses are currently estimated at \$9.5 million for 2018 and include all public company costs.

The Corporation's Run Rate Payout Ratio is approximately 98%. The table below sets out our estimated Run Rate Payout Ratio alongside the after-tax impact of potential improvements the Corporation is expecting in 2018.

Annualized Cash Flow	Comments	Amount (\$)	\$ / Share
Revenue	\$1.32 USD/CAD exchange rate	\$ 89,900	\$ 2.46
General & Admin.		(9,500)	(0.26)
Interest & Taxes		(20,400)	(0.56)
Net cash flow		\$ 60,000	1.65
Annual Dividend		59,000	1.62
Surplus		\$ 1,000	\$ 0.03
Other Considerations (after taxes and interest):			
SCR & Kimco	Every addtl \$2 million in distributions received is \$0.05/share	+1,600	+0.05
New Investments	Every \$50 million deployed @ 15%	+3,563	+0.10

The senior debt facility was drawn to \$82.1 million at June 30, 2018 (reduced to \$75.0 million as of July 23, 2018), with the capacity to draw up to another \$225.0 million based on new covenants and credit terms, in addition to the \$50 million accordion facility for a total of \$275.0 million. The annual interest rate on that debt was approximately 5.5% at June 30, 2018.

Alaris' unique capital structure continues to fill a niche in the private capital markets. Therefore, Alaris continues to attract interest in its capital from private businesses across North America and is confident it will contribute capital to new, and existing Partners in 2018. As a conservative measure, Alaris does not use any estimates for future revenue earned from the contribution of capital into new or existing Partners in its guidance or budgeting process.

Certain information contained herein may be considered to be future oriented financial information or financial outlook under applicable securities laws, including statements regarding expected revenues (annually and quarterly), the Run Rate Payout Ratio and anticipated expenses. The purpose of providing such information in this MD&A is to demonstrate the visibility the Corporation has with respect to its revenue streams, and such statements are subject to the risks and assumptions identified for the business in this MD&A, and readers are cautioned that the information may not be appropriate for other purposes. FORWARD-LOOKING STATEMENTS

This MD&A contains forward looking statements. Statements other than statements of historical fact contained in this MD&A may be forward looking statements, including, without limitation: management's expectations, intentions and beliefs concerning the growth, results of operations, performance and business prospects and opportunities of the Corporation and the Partners, the general economy, the amount and timing of the declaration and payment of dividends by the Corporation, the future financial position or results of the Corporation, business strategy, proposed acquisitions, growth opportunities, budgets, litigation, projected costs and plans and objectives of or involving the Corporation or the Partners. In particular, this MD&A contains forward looking statements regarding the anticipated financial and operating performance of the Partners in 2018, including, without limitation; the Earnings Coverage Ratio for the Partners and the Corporation's Run Rate Payout Ratio; the revenues to be received by Alaris in 2018 (on an annual and quarterly basis); the Corporation's general and administrative expenses and cash requirements in 2018; the CRA proceedings (including the expected timing and financial impact thereof); annualized net cash from operating activities; the impact of expected operational improvements for the Corporation; interest and tax expenses; dividends to be paid; changes in Distributions from Partners; the proposed resolutions to outstanding issues with certain Partners; the restart of Distributions from any partners not currently paying a Distribution; the timing for collection of deferred or unpaid Distributions; impact of new capital deployment; and Alaris' ability to attract new private businesses to invest in. Many of these statements can be identified by looking for words such as "believe", "expects", "will", "intends", "projects", "anticipates", "estimates", "continues" or similar words or the negative thereof. To the extent that any forward-looking statements herein constitute a financial outlook, including without limitation, estimated revenues and expenses, Run Rate Payout Ratio, dividends to be paid, the impact of capital deployment and changes in distributions from Partners, they were approved by management as of the date hereof and have been included to assist readers in understanding management's current expectations regarding Alaris' financial performance and are subject

to the same risks and assumptions disclosed herein. There can be no assurance that the plans, intentions or expectations upon which these forward looking statements are based will occur. Forward looking statements are subject to risks, uncertainties and assumptions and should not be read as guarantees or assurances of future performance. Accordingly, readers are cautioned not to place undue reliance on any forward looking information contained in this MD&A. Statements containing forward looking information reflect management's current beliefs and assumptions based on information in its possession on the date of this MD&A. Although management believes that the expectations represented in such forward looking statements are reasonable, there can be no assurance that such expectations will prove to be correct.

Statements containing forward-looking information by their nature involve numerous assumptions and significant known and unknown facts and uncertainties of both a general and a specific nature. The forward looking information contained herein are based on certain assumptions, including assumptions regarding the performance of the Canadian and U.S. economies over the next 24 months and how that will affect our business and our ability to identify and close new opportunities with new Private Company Partners; the continuing ability of the business of the Partners to pay the distributions; the performance of the Private Company Partners; that interest rates will not rise in a material way over the next 12 to 24 months; that the businesses of the Partners will not change in a material way; more private companies will require access to alternative sources of capital; and that Alaris will have the ability to raise required equity and/or debt financing on acceptable terms.

Some of the factors that could affect future results and could cause results to differ materially from those expressed in the forward looking statements contained herein include risks relating to: the dependence of the Corporation on the Partners; risks relating to the Partners and their businesses; reliance on key personnel; general economic conditions; failure to complete or realize the anticipated benefits of transactions; limited diversification of Alaris' transactions; management of future growth; availability of future financing; inability to close new partner contributions in a timely fashion on anticipated terms or at all; competition; government regulation; leverage and restrictive covenants under credit facilities; the ability of the Partners to terminate (by way of a redemption) the various agreements with Alaris or a material portion of Alaris investment; unpredictability and potential volatility of the trading price of the common shares; fluctuations in the amount of cash dividends; restrictions on the potential growth of the Corporation as a consequence of the payment by Alaris of substantially all of its operating cash flow; income tax related risks; ability to recover from the Partners for defaults under the various agreements with Alaris; potential conflicts of interest; dilution; liquidity of Common Shares; changes in the financial markets; risks associated with the Partners and their respective businesses; a change in the ability of the Partners to continue to pay Distributions to Alaris; a material change in the operations of a Partner or the industries in which they operate; a failure to obtain the benefit of any concessions provided to any Partners; a failure to obtain by the Corporation or the Partners required regulatory approvals on a timely basis or at all; changes in legislation and regulations and the interpretations thereof; litigation risk associated with the CRA's reassessment and the Corporation's challenge thereof; and material adjustments to the unaudited internal financial reports provided to Alaris by the Partners. The information contained in this MD&A, and the Corporation's annual management discussion and analysis for the year ended December 31, 2017 including the information set forth under "Risks and Uncertainty", identifies additional factors that could affect the operating results and performance of the Corporation. Without limitation of the foregoing assumptions and risk factors, the forward looking statements in this MD&A regarding the revenues anticipated to be received from the Partners and the Corporation's general and administrative expenses are based on a number of assumptions including no adverse developments in the business and affairs of the Partners that would impair their ability to fulfill their payment obligations to the Corporation and no material changes to the business of the Corporation or current economic conditions that would result in an increase in general and administrative expenses.

The forward-looking statements contained herein are expressly qualified in their entirety by this cautionary statement. The forward looking statements included in this MD&A are made as of the date of this MD&A and Alaris does not undertake or assume any obligation to update or revise such statements to reflect new events or circumstances except as expressly required by applicable securities legislation.
